

Your personal status analysis
before and after the eye service.

Eye fitness test

Result:

35-44 points:

Currently, your tear film is in a good to very good condition. We recommend repeating this questionnaire at regular intervals to make sure that the well-being of your eyes does not deteriorate. The eye service can also be performed as a preventative measure.

25-34 points:

Your answers indicate that your eyes deviate significantly from the optimum condition. We recommend 3 eye service appointments which will improve your tear film and clearly boost your well-being.

0-24 points:

Your tear film already deviates significantly from the normal condition. We recommend 4 eye service appointments which will optimize your tear film and therefore substantially improve your overall comfort.
