**Dry Eye
Management**
One Step ahead.

Designed for innovative Dry Eye analysis

break-through Dry Eye analysis
in less than 10 minutes

tearcheck® allows quick and easy examinations. Two high-resolution cameras inside provide perfect capture of images and videos. Analysis fully automatically, report included. tearcheck® reports can be exported, printed or easily shared via WIFI.

tearcheck® was designed to create a new standard for smart & reliable dry eye analysis.

9 exams for easy and fast, smart screening

Eye Fitness Test	Abortive Blinking	D-BUT
TFSE®/NIBUT	Meibography IR	OSIE®
Eye Redness	Demodex	Tear Meniscus

Discover more about

The pioneering Dry Eye treatment

Scientifically proven technology for the treatment of Meibomian Gland Dysfunction (MGD).

E-Eye is dedicated to treat dry eye in its evaporative form, resulting from MGD. 86% of Dry Eye cases are evaporative. The treatment outcome is clinically proven. Patented IRPL® technology (Intense Regulated Pulsed Light) inside. A short treatment protocol (3-4 sessions) is taking just a few minutes (5 flashes per eye). One maintenance session is recommended after 6-8 months.

E-Eye is available in more than 70 countries worldwide.

The working solution to treat dry eye
